Liburdi Turbine Services provides mechanical and metallurgical engineering services specifically tailored for the gas turbine industry. This allows us to perform an independent analysis of problems and, where required, to modify or redesign components. Our expertise lies in the fields of aerodynamics, thermodynamics, heat transfer, stress analysis, metallurgy and mechanical design as they apply to aircraft and land based gas turbines. The company offers firm opportunities for career growth in an attractive but yet challenging technical environment. We are currently seeking candidates who are qualified for the role of **Machine Operator**.

The role of Machine Operator reports to the Manufacturing Manager. We have one (1) position available on our **day shift** (Monday to Friday, 7:00am – 3:30pm), one (1) position available on our **2nd shift** (Monday to Friday, 3:30pm – 12:00am) and one (1) position available on our **3rd shift** (Sunday to Friday, 11:00pm – 7:00am).

Typical Duties Include (but are not limited to):

- Set up machines at the beginning of the shift to ensure proper working order.
- Perform testing procedures to ensure that machines work optimally during the production procedures.
- Maintain and clean tools before and after each shift
- Monitor machines during every procedure to ensure optimum running.
- Troubleshoot problems during machine operation.
- Calibrate machines as required.
- Ensure that regular and preventative maintenance procedures are carried out.
- Ensure stocks of needed materials are ready and available at all times.
- Create and maintain activity logs.
- Provide relevant information regarding progress to supervisors.

Key Skill Requirements:

- Knowledge of general Production Procedures
- Ability to Read Blueprints, Schematics and Manuals

Liburdi Turbine Services Inc.

400 Highway 6 North, Dundas, Ontario, L9H 7K4, Canada

- Excellent Analytical Skills
- Strong Attention to Detail skills
- Ability to work effectively in a dynamic team environment as well as individually
- Excellent at performing multiple tasks for getting things done

Key Education Requirements:

- 1-2 years of related work experience is required
- Coop experience is an asset
- High School diploma or equivalent is required
- Experience using inspection tools (for example: Vernier calipers, height gauges, and dial indicators) is required
- Interest in the nuclear or aerospace industry is preferred

Application Information:

This role is a full-time position with initial training on our day shift. Interested candidates are encouraged to forward their resume (**please include the reference number in the subject line**) to: resume@liburdi.com

Liburdi is an equal opportunity employer. We welcome and encourage applications from people with disabilities. Accommodations are available upon request for candidates taking part in all aspects of the selection process.

Only qualified candidates selected for an interview will be contacted.
